

PRODUCT SPOTLIGHT

GAS COUPLINGS

Our Gas Couplings are ideally suitable for applications in the switchgear industry for SF6 Gas charging in medium or high voltage SF6 circuit breakers, amongst others.

INDUSTRY TRENDS WATCH IN 2025

Sustainable Alternatives to SF6 in Switchgear

Due to environmental concerns and regulations, industry pioneers are driving the shift from SF6 gas in switchgear to eco-friendly alternatives like AirPlus, g³, and Clean Air, significantly reducing environmental impact and greenhouse gas emissions while maintaining the same high voltage insulation performance.
