

## PRODUCT SPOTLIGHT

### QUICK RELEASE COUPLINGS

Series QRC Couplings are engineered for versatile hydraulic applications and are compatible with a variety of media, including liquids, chemicals, steam, gases, and vacuum. They meet the dimensional standards of ISO 7241-1 Series B and are available in body sizes ranging from 1/4" to 1".

## INDUSTRY TRENDS WATCH IN 2025

### The Role of Quick Release Couplings in Pneumatic Systems

Quick Release Couplings are evolving with smarter materials, improved sealing tech, and compact designs for high-pressure applications. There's a growing shift toward QRCs that support automation, reduce energy loss, and allow tool-free maintenance — making them essential for next-gen pneumatic systems focused on speed, safety, and sustainability.

## LIFE @ SEE

### Congratulations Mr.Sameer Khara!

SEE Linkages Managing Director Mr.Sameer Khara has been appointed as the President of the Federation of Gujarat Industries (FGI).
